Education

•Vellore Institute of Technology, Bhopal *Sept 2023 - May 2027*
BTech CSE core CGPA: 9.00

•Lucknow Public College, Lucknow *Apr 2021 - Mar 2022*
ISC Percentage: 94.00

•Lucknow Public College, Lucknow *Apr 2019 - Mar 2020*
ICSE Percentage: 86.40

Experience

•Social Winter of Code and AcWOC *Jan 2025 - Mar 2025*
Open Source Contributer - ***Certificate*** Remote

- Initiated collaborative efforts on 5 distinct features within popular SWOC projects, contributing to impactful improvements.
- Developed proficiency in version control systems and executed over 15 code reviews, fostering a culture of quality assurance among team members while enhancing collaborative project success rates.
- Recognized among the Top 15 contributors in the ACWoC College Open Source Program for exceptional analytical skills, efficient debugging, and impactful code contributions.

•CodSoft *Sept 2024 - Oct 2024*
C++ programming - ***Certificate*** Remote

- Crafted innovative C++ algorithms that addressed complex technical issues; findings led to the resolution of three major causes of software crashes, improving application stability for end-users.
- Achieved an impressive track record of completing over 5 distinct tasks ahead of schedule.

Projects

•Landing pages (Advitya, Metaversity, WiCys, Freelance-hub)
College Fest and Club Landing Page Website (Frontend Developer)

- Tech Stack: HTML, CSS, JavaScript, React, Angular, Next.JS and integrated 3D effects using Spline and JS.
- Designed a responsive and user-friendly interface for the club's webpage, ensuring seamless cross-device accessibility. Conducted usability analysis to identify and resolve three major drop-off issues during peak event traffic, improving user retention and engagement.
- Spearheaded creation of personalized dashboards for users accessing the festival's online platform; findings identified three critical areas improving overall navigation efficiency among attendees interested in past events.

•Personal Finance Tracker -
A finance tracker website (Frontend developer, Database)

- Tech Stack: HTML, CSS, Bootstrap (CSS, JS), Cryptojs, Chart.js, and Firebase.
- Crafted a browser-based personal finance tracker to streamline financial management with budget-based expense tracking.
- Integrated features like bank transaction history import, spending charts, category budgeting, currency preferences, and data export to spreadsheets.

•Plagiarism Checker -
A plagiarism detection web application (Frontend Developer, Backend Integration)

- Tech Stack: React.js, Flask, SQLite, Firebase, Google/Bing Search API, TF-IDF, Jaccard Similarity, VS Code, Postman.
- Developed a dark-themed web app to detect plagiarism using two detection modes — Exact Match (via web scraping) and Database Comparison.
- Implemented text preprocessing and comparison using NLP techniques like TF-IDF and Jaccard Similarity for accuracy in detection.
- Integrated Google/Bing Search API for real-time web content matching to flag directly copied content.
- Built a scalable document database using SQLite/Firebase for internal document comparisons.

Technical Skills and Interests

Languages: HTML, CSS, JavaScript, C++, Python(intermediate), Java(basic), SQL(basic)
Developer Tools: Vs Code, Github, Chrome DevTools, Postman, firebase, spline
Frameworks: React(vite), Angular, flask(beginner), Bootstrap(intermediate), Tailwind(basic)
Soft Skills: Continuous Learning, Teamwork and Collaboration, Emotional Intelligence, Team Guidance, Flexibility, Networking and Relationship Building, Professional Integrity.
Coursework: DSA, OOPs (C++, Python, Java), Discrete Mathematics, DLD, Operating Systems, Database Management Systems (SQL), Calculus, Engineering Mathematics, Linear Algebra.
Areas of Interest: Traditional Sketching, Creative Thinking, Project Management, Designing, Web Development

Positions of Responsibility

- **Technical Core Member -** Women in Cybersecurity *Dec 2024 - present*
- **Technical Core Member -** Freelancing Club *Dec 2024 - present*
- **Technical Core Member -** Null Chapter *Dec 2024 - present*
- **Documentation Team -** Pi Mathematics Club *Dec 2023 - Dec 2024*

Achievements

- **Algorithm Practice:** Solved 100+ problems on leetCode majority on Dynamic Programming and earned 4 badges of python, C++, Linux Shell, java on HackerRank.
- **IdeaForge 2k24:** Secured 2nd position for developing a browser-based finance tracker, demonstrating expertise in web development and financial tech solutions.
- **National Mathematics Week'24:** Won 2nd position in a nationwide mathematics model competition, showcasing strong analytical and creative thinking.
- **Football Tournament:** Earned 1st position in the football competition at AdVITya'24, an annual event organized by VIT Bhopal University,and Aarambha'24 an annual college sports fest.
